1. The disclosure is objected to because of the following informalities:

In line 4 of claim 1, "adjacent to the winch, the flexible member" should be deleted.

The third line of claim 17 should be amended to read: --attaching a flexible member at one end to the winch member--;

line 4 should be amended to read: --and at the other end detachably engaging with the tire,--. Appropriate correction is required.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 17-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitations "the tire being displaceable..." in line 5 of claim 17 and "the portion being rotatable..." in line 10 do not properly describe steps in the performance of the spare tire-handling method.

Claims 19 and 20 do not recite proper steps in the performance of the claimed method.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

5. Claims 1-20 are rejected under 35 U.S.C. 102(a) as being anticipated by Raz et al.

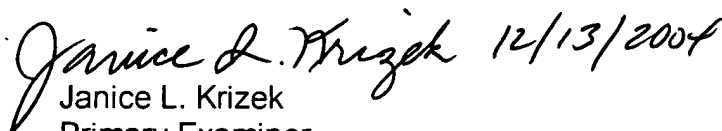

Raz et al. disclose in Figs. 1-8 a spare tire-handling device including wheel retainer 32 having housing 38, 40, extending portion 46, stop 58 and biasing member 60.

6. The cited prior art shows spare tire-handling devices.
